new increasing manner and old increasing manner (Li, 2024, p. 6). Economic high quality develop emphasize new produce labor-produce labor with new factors- and new produce relation that put the emphasis on produce relation with new factors adjustment and new produce labor and new produce relation's further develop. Economic high quality develop put the emphasis on economic develop quality and economic develop quantity's coherence and economic effectiveness and economic benefits' coherence, and economic develop structure and economic develop function's coherence. Economic high quality develop emphasize promoting produce labor develop, promoting produce relation develop, promoting economic relation develop and promoting social relation develop, and promoting relation among people develop, economic high quality develop is produce labor's further develop, produce relation's further develop, economic relation's further develop, social relation's further develop and relation among people's further develop, is further develop of economic structure as basis and further develop of uppers, and is further develop of social existence and social awareness, and is further develop of material-material relation and other stuff that is determined by material- material relation. Thus, economic high quality develop is further develop of produce labor and produce relation and economic basis and uppers and social existence and social aware, is further develop political uppers and unpolitical uppers and further develop of culture uppers and unculture uppers. Economic high quality develop emphasize produce's factors' high quality develop and market high quality develop, emphasize resource environment's high quality develop and resource structure's high quality develop.

Economic high quality develop emphasize coherence of economic increase and social develop and coherence of economic increase and cultural advance and coherence of economic increase and ecological develop (Li, 2025, p. 18). Economic high quality develop emphasize economic quantity's accumulate, and economic quality's enhance and robust and leap, emphasize economic effectiveness's enhance, and economic efficiency's enhance, and economic fruits enlarge and economic products increase. Economic high quality develop emphasize economic total quantity enlarge, and economic scale's further enlarge, economic effectiveness's further enhance, emphasize new industrious chain's form and new produce platform's form and even of industrious chain and supply chain. Economic High quality develop emphasize people must guide new industry health and sequence develop and enhance and guide traditional industry maximization and upgrade, support firm use digital and intellectual technique and green technique to innovate and upgrade traditional industry. Reinforce institute shape of environment protect and safeguard.

Economic high quality develop emphasize people must insist and blaze the following trails and ensure conduct of insist and blaze can be achieved in the some methods: firstly, people must insist produce labor's accelerate develop, and achieve coherence and adjustment of produce labor and produce relation, and make sure these coherence and adjustment can take a serious of methods and tools and can take a series of steps and forwards, and can take a series of manners and tools to achieve further develop. Secondly, people must insist economic relation and social relation's further develop, and make sure economic relation can be regarded as basis of social relation, economic relation can push social relation's develop, and economic relation can push persistently perfect of social relation and relation among people. Thirdly, economic high quality develop must insist coherence of economic basis and uppers and must insist coherence of political uppers and unpolitical uppers, and must insist coherence of social existence and social awareness. Fourthly, economic high quality

develop must insist transformation of driving power and realignment of resource structure adjustment and must foster new driving power and new resource structure.

Promote Produce Labor and Produce Relation Coherence Develop and Promote Produce Labor Persistently Upgrade

People must insist produce labor's persistently develop and must insist produce labor's coherence with produce relation, and must emphasize produce labor's persistently upgrade and produce labor's persistently renew, must emphasize produce's labor's persistently develop, produce labor's persistently construct, and ensure produce ability can be received persistently construct, produce relation can be achieved persistently construct. People must promote produce labor and produce relation persistently develop, promote human factor and stuff factor collaborative develop and promote produce labor that constitute human factor and stuff factor can be capable of persistently developing, and promote produce labor can be corresponding to produce relation, and ensure produce labor can be used to promote produce relation's develop, promote economic relation's develop, and social relation's develop, and promote produce labor can be used to robust produce relation's develop and robust economic relation's develop and social relation's develop. People must emphasize produce labor must push economic basis persistently develop, and promote economic basis persistently transformed into uppers, and lay the foundation for economic basis and uppers persistently develop forward, and lay the foundation for relation of economic structure and top design, and lay the foundation for economic basis and upper's relation. People must insist produce labor's guide effect to social existence and social aware, and must insist produce labor's guide effect to material to material and people to material, and must insist produce labor's guide effect to nation develop and society develop. People must focus on produce labor upgrade and focus on human factor and stuff factor that can be included in produce labor persistently innovate and persistently perfect, and must focus on people's produce environment and living environment persistently perfect and must insist focusing on people's economic environment and political environment's perfect.

Produce labor's persistently develop and produce relation's persistently perfect can promote economic high quality develop and can promote China economic modernization's process persistently push, and can promote China economy step forward more flourish, more strong and more magnificent. Produce labor's develop can push China economy obtain more and more human resource advantage and more and more human resource assistance, and can obtain a sort of capacity and a sort of ability to full utilize human resource and develop human resource and and robust human resource, and promote human resource can persistently promote economic develop and promote economic achieve persistently probe and step forward. Produce labor can promote material resource persistently innovate and perfect and meet material's resource persistently flourish' needs, and can meet the requirement of material products diversify and material products persistently increase, produce labor can push economic persistently probe and can help economic persistently perfect and persistently meet dweller of urban and suburb's needs, and push economic institute persistently transformation and persistently innovate. Theses meets and transform and innovate can push achievement of economic develop and push attainment of economic develop, and these achievements and attainments of economic develop can push progress of china economic modernization and push China economy step forward a brilliant orientation. China economic modernization need produce labor persistently develop and produce relation persistently perfect, and need the meet of requirement of

economic persistently probe, only by doing this, can China economy achieve modernization process and achieve modernization reshape, and achieve modernization process's rebuilt.

Promote Economic Relation and Social Relation Persistently Develop, and Ensure China Economics Persistently Develop.

People should promote economic relation and social relation persistently perfect, and promote economic structure as basis persistently realign and persistently adjust, people should realign economic structure and promote economic structure persistently transformed and promote economic structure persistently upgrade, and promote economic structure persistently replace, and strive to achieve economic indicator persistently renew, and economic driving force's persistently perfect, and economic efficiency persistently reshape. People should promote economic factor rearrange and reconstitute and promote economic factor persistently renew and economic factor persistently upgrade, and economic factor persistently reshape and economic factor persistently consolidate.

Economic relation must insist put the emphasis on economic structure and put the emphasis on economic function and must insist the rule of economic structure determine economic function and must insist the rule of economic function can be determined by economic structure. Economic structure can be constituted by economic factor and elements that can be deem as produce labor and produce relation, produce value and produce price, and products constitute and price constitute and products and markets and can be classified as product market and factor market. Economic structure must emphasize first, and second and third industry's coherence and must emphasize, economic infrastructure and quality infrastructure's coherence, and must emphasize produce chain and supply chain's coherence. Economic structure realign means first industry and second industry and third industry's coherence, and means economic infrastructure and quality infrastructure's coherence realign, and means produce chains and supply chains coherence realign. People must insist that produce labor prior develop and economic relation prior develop principle and must insist that economic relation basic effect' exert and must insist economic relation's develop can be deemed as political relation develop, culture develop and other stuff relation's develop basis. Economic relation emphasize people must put the emphasis on producing factor relation, product relation, and market relation, and government relation, people must insist coherence of producing factor relation and product relation, market relation and government relation, must insist factor governance, product governance, market governance, government governance, and must insist inter-factor governance, inter-product governance, inter-market governance, inter-government governance, and make sure these governance can promote economic high quality develop and China economic modernization, and make sure these governance can promote China's produce factor develop, product develop, market develop, government develop, and push the connect of produce factor, products, market and government, and connect of market governance and inter-government governance.

Social relation musts insist construct and build of social relation and inter-people relation and must emphasize social relation's built and conduct and must emphasize social relation's reconstruct and relation among people's reconstruct. Social relation construct must emphasize social intercourse's support and social communication's support and must emphasize regional economic freedom and commercial freedom and must ensure civilization's wide spread and broadcast, only by doing this, can social relation be shaped by social

intercourse and social communication and by culture broadcast and civilization broadcast. Social relation insist that different social subject can form different social connect, different social subject can form different social relation, these social connect and social relation can form different social ability and different social competent, and these social ability and social competent can promote social further develop and promote social partner further develop, and promote social and social partner achieve further develop and further probe. Social relation must insist produce labor's basic status and social relation's basic status and insist notion of produce labor and produce relation can form a sort of contradiction move, and can form economic basis and uppers relation and can form notion of economic basis and uppers contradiction move, and can form relation of political uppers and unpolitical uppers and form notion of political uppers and unpolitical uppers contradiction's move, and these uppers and economic basis's reverse adjustment to economic relation and social relation, and these uppers and economic basis's reverse adjustment to relation among people. Social relation's develop and relation among people can push and promote economic relation's further develop and economic relation's further probe, and social relation's develop and economic's relation develop can promote produce labor's further develop and produce relation's further develop and can ensure produce labor are capable of persistently pushing produce labor's probe and produce relation's innovate.

Promote People's Comprehensive Develop and People's Comprehensive Advance and Promote Modernization with China Style and China Economic Modernization Persistently Probe and Persistently Develop.

People must promote people's develop and people's probe and use people's modernization to push nation's modernization, and social's modernization, and achieve China's economic modernization, and promote China economic modernization can follow people's modernization and achieve modernization. Produce labor's develop, produce relation's develop, people comprehensive develop, and people comprehensive advance push China economic modernization, and China economic develop and use China economic develop to promote China economic modernization, and China economic probe. People's comprehensive develop need social, school, and family common endeavor, and need social teach, school teach, and family teach common out of endeavour and out of strive, and need social, school, and family's common effect, and common promote people's comprehensive develop, and promote people's comprehensive quality's enhance, and promote people's comprehensive ability's enhance and comprehensive competent robust. People must ensure their economic, political, cultural, social and ecological relation be further perfected, and its ability be further perfected and enhanced and robusted, and make sure economic and political and other discipline's ability can be enhanced, ensure education, scientific and talent ability's further develop and enhanced and ensure national and social ability persistently enhanced. These abilities enhanced can promote China economic develop and promote China economic modernization probe and step forward.

People's comprehensive ability's enhance and modernization's enhance need people's strive and endeavour and need further and probe forward and step forward and lean forward incentive of talent and vitality of people, and need people to seize balance and even of daily and public, of moral and ethic, and of flourish and magnificence. People's comprehensive ability' enhance need support of human and enhance of comprehensive competent need human relation's perfect, and human relation's innovate. Human relation's perfect need human

relation's origin and reshape and need human persistently reform and innovate, and these perfect and reform and innovate can ensure modernization of China economy and new orientation of China economy, and make sure China economic achieve democratic modernization, advance modernization, civilization modernization, and make sure China economic persistently develop and persistently reshape and innovate. People must ensure China economic can push human modernization, stuff modernization, economic modernization, political modernization, cultural modernization, social modernization, ecological modernization, national protect and guarantee modernization, and troop modernization. Only by doing this, can people achieve modernization of China economy and can people push China economy's develop and flourish.

People's pursuit of comprehensive develop and comprehensive probe need people to recognize stuff's develop law and regulation and need people to full utilize these develop law and develop regulation and in order to achieve comprehensive develop goal and comprehensive develop lean people must full use all sort of develop resource and develop method, and use these resource and method to promote people's comprehensive develop and people's comprehensive probe, and use these resources and methods to enhance people's comprehensive quality and enhance people's cultivate and use these resource and method to foster and mature people's comprehensive ability and comprehensive competent and promote people's comprehensive probe and comprehensive develop.

Under the effect and guidance of people's comprehensive quality enhance and comprehensive ability enhance and people's comprehensive probe and comprehensive develop, china's modernization persistently perfect and innovate and China economy's modernization persistently achieve and push. People's comprehensive quality and comprehensive ability can promote produce labor's develop, promote produce relation's develop, promote economic basis persistently develop and promote uppers persistently develop. People's comprehensive quality and comprehensive ability is driving power of China economy modernization, is driving power of China economic's develop manner and develop road, and these quality and ability's enhance can promote process of China economic modernization and can promote China economic develop manner and road modernization, and promote China economic develop manner and develop road persistently innovate. people's comprehensive quality and people's comprehensive ability's enhance can result in people's comprehensive develop and comprehensive probe, and theses comprehensive develop and comprehensive probe can bring people with economic modernization, and promote economic develop towards orientation of more better and more rapid, and this sort of promotion can promote China economic modernization, and promote China economic step towards a more better future and a more bright future.

Use Economic Develop New Notion to Guide Economic High Quality Develop and Promote China Economic Modernization.

Economic develop new notion emphasize green develop, share develop, open up develop, collaborative develop, and creative develop,¹ and these develop notion can promote economic flow with nature, promote economic harmonious and co-existence, promote economic open-up and cooperation, promote economic collaborative and unity, and promote economic creative and reshape. Under the guidance of new economic
